C.H.A.P.
Community Health Accreditation Program

24-Hour Emergency Service: Special emergency assistance is available to oxygen clients through a 24-hour telephone answering service.

Billing Specialists: Medicare, Medicaid, and third party payors.

Hospital Discharge Assistance: We work directly with physicians and hospital discharge coordinators to ensure smooth transitions from hospital to home care.

Client Training: A trained staff of home health care professionals insures that each client is fully trained on the operation, safety and care of equipment. Instruction is carried out in the convenience and comfort of the client's home.

Assessment: A trained staff member meets with and assesses the needs of the client.

Free Services: Delivery, set-up, and product training are free of charge. Courtesy home visits by respiratory therapist for oxygen clients. 24-hour Emergency Service (Oxygen).

Service and Repair: On most medical equipment.

Licensed Respiratory Therapist on staff.
